Read all instructions before installation. Incorrect installation voids all warranties. Read carton insert for details. Sweep or vacuum the floor frequently to remove loose dirt and prevent scratching. Wipe up spills immediately. Use walk-off mats at entry ways and protective pads on furniture legs. Never use wax, oil-based cleaners, wet mopping, ammonia, dust treatments or abrasive agents to clean. Cleaning products specifically developed for vinyl flooring are recommended. Printed room scene and swatches are provided as reference only. Product selection, colour and specifications may change without notice. Product selection should be made from actual samples at an authorized dealer for true colour representation.

\*Although normal household spills will not harm this flooring, they should still be cleaned up immediately so as to not harm your subfloor. This warranty does not cover damage from standing water caused by water leaks from broken pipes/applications, weather conditions or any other natural disasters such as flooding or excessive rainfall. Damage from high heels is also excluded from our warranty. Remove shoes or protect traffic areas with area rugs or protective runners.
